DETAILED ACTION

1. Claims 1-22 are pending.

Election/Restrictions

2. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

List I: Sample

1. Whole blood
2. Serum
3. Plasma
4. Stool
5. Urine
6. Cerebrospinal fluid
7. Bronchoalveolar lavage
8. Sputum
9. Exhaled breath condensate
10. Semen
11. Saliva
12. Joint fluid
13. Ulcer secrete

List II: Inflammatory Disorder

1. Bowel disease/inflammatory bowel disease
2. CNS disorder
3. Lung disease or injury
4. Kidney disorder
5. Periodontal disorder
6. Peritoneum disorder
7. Pericardium disorder
8. Pleura disorder
9. Joint disorder
10. Skin ulcer

Applicant is required, in reply to this action, to elect a single species from each of the two lists of species set forth above, to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

List I: Sample (claim 2)

1. Whole blood (claim 2)
2. Serum (claim 2)
3. Plasma (claim 2)
4. Stool (claim 2)
5. Urine (claim 2)
6. Cerebrospinal fluid (claim 2)
7. Bronchoalveolar lavage (claim 2)
8. Sputum (claim 2)
9. Exhaled breath condensate (claim 2)
10. Semen (claim 2)
11. Saliva (claim 2)
12. Joint fluid (claim 2)
13. Ulcer secrete (claim 2)

List II: Inflammatory Disorder (claims 11-13 and 22)

1. Bowel disease/inflammatory bowel disease (claims 11 and 13)
2. CNS disorder (claim 11)

Art Unit: 1641

3. Lung disease or injury (claim 11)
4. Kidney disorder (claim 11)
5. Periodontal disorder (claim 11)
6. Peritoneum disorder (claim 11)
7. Pericardium disorder (claim 11)
8. Pleura disorder (claim 11)
9. Joint disorder (claim 11)
10. Acute gastroenteritis (claim 12)
11. Skin ulcer (claim 22)

The following claim(s) are generic: claims 1, 3-10, and 14-21.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: each of the species listed above lack the same or corresponding special technical features.

3. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

Art Unit: 1641

remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
